Q&A

What is the inspiration

behind this comic?

I've been doing comics with Ann for 6 years now and always thought her work is magic.

So I turned that into a premise:
What if there's a magic brush that can materialize someone's imagination?

FLATTERED
ANN
DAN

What if that brush

could take you to any
fantasy world, to the
weirdest characters?
What if that sort

hands of a childlike
and reckless cat that
loves going outside?

What is your favorite food?
Chicken nuggets!

Do you really need to ask?

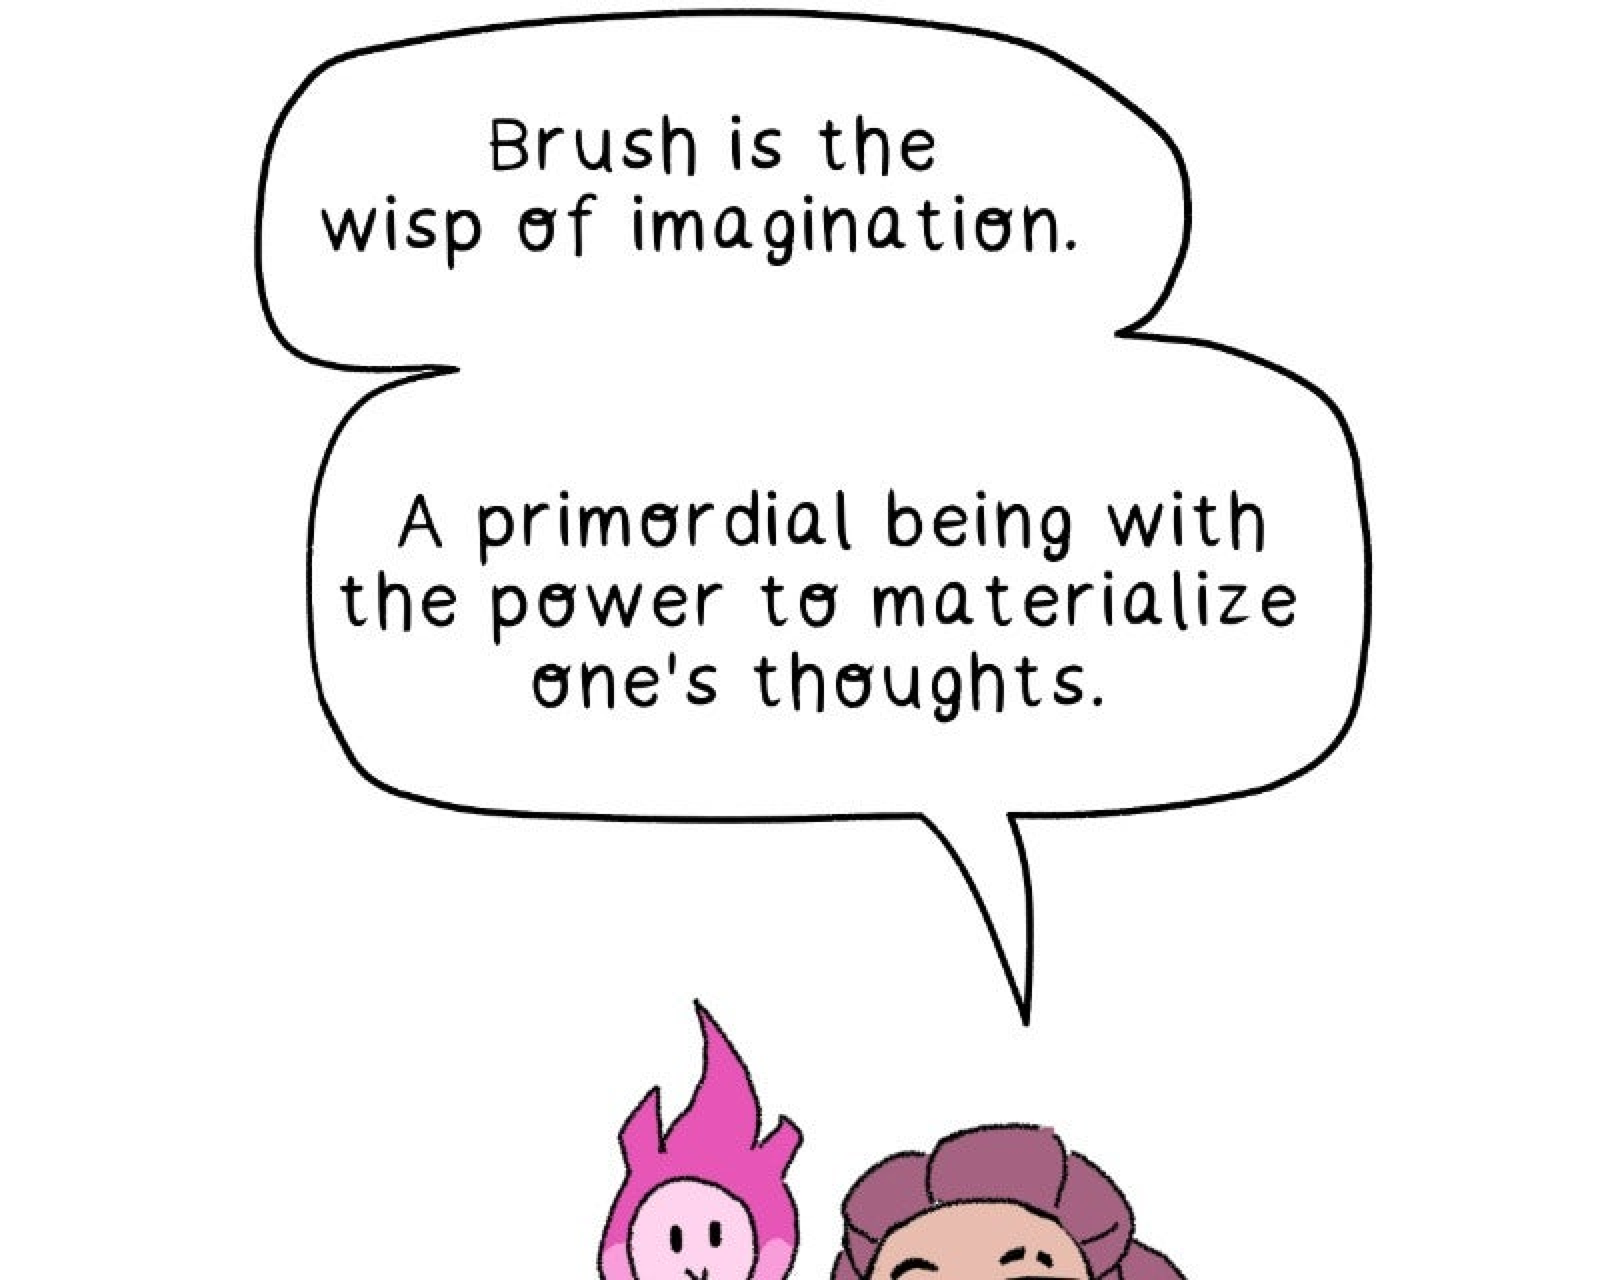
Where are the
creators from?

VENEZUELA

When is the
lord of keys
coming back?

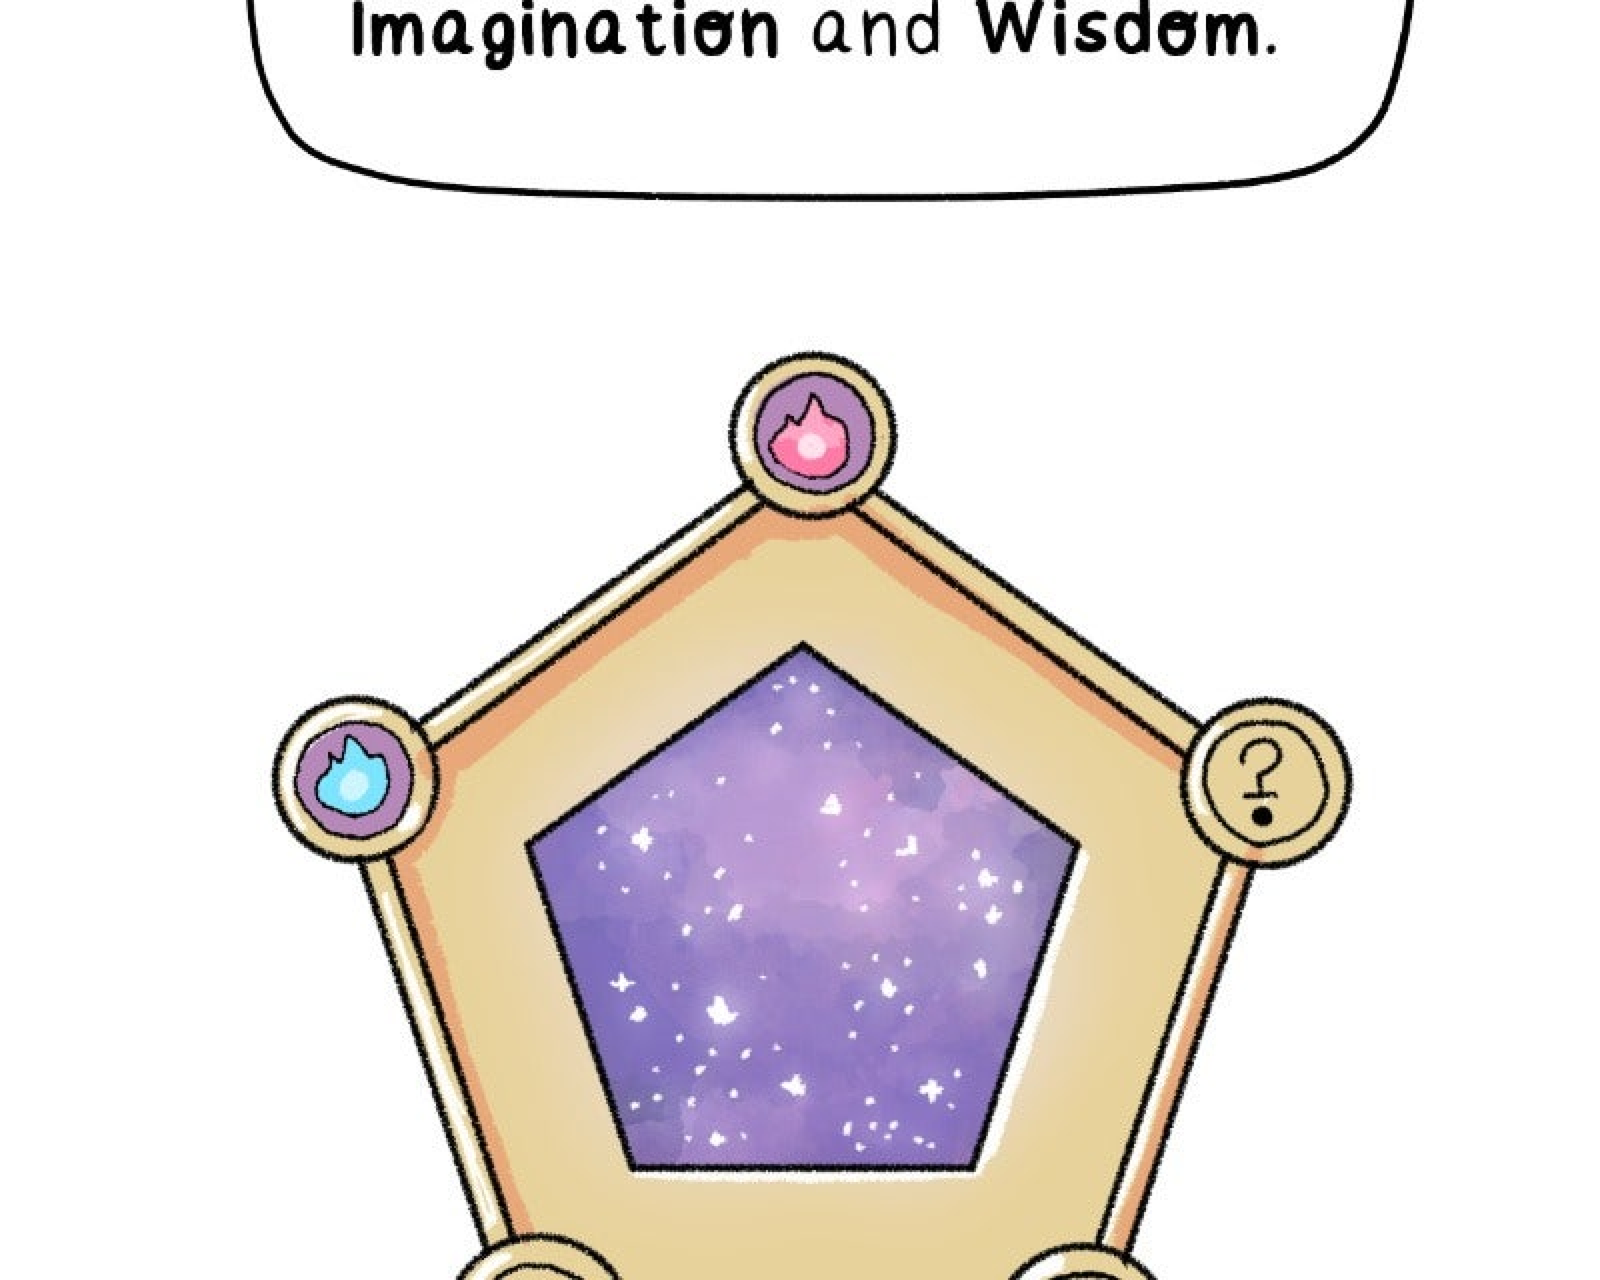
The lord is hibernating
but he'll be back!

What is
brush actually?



Brush is the wisp of imagination.
A primordial being with the power to materialize one's thoughts.

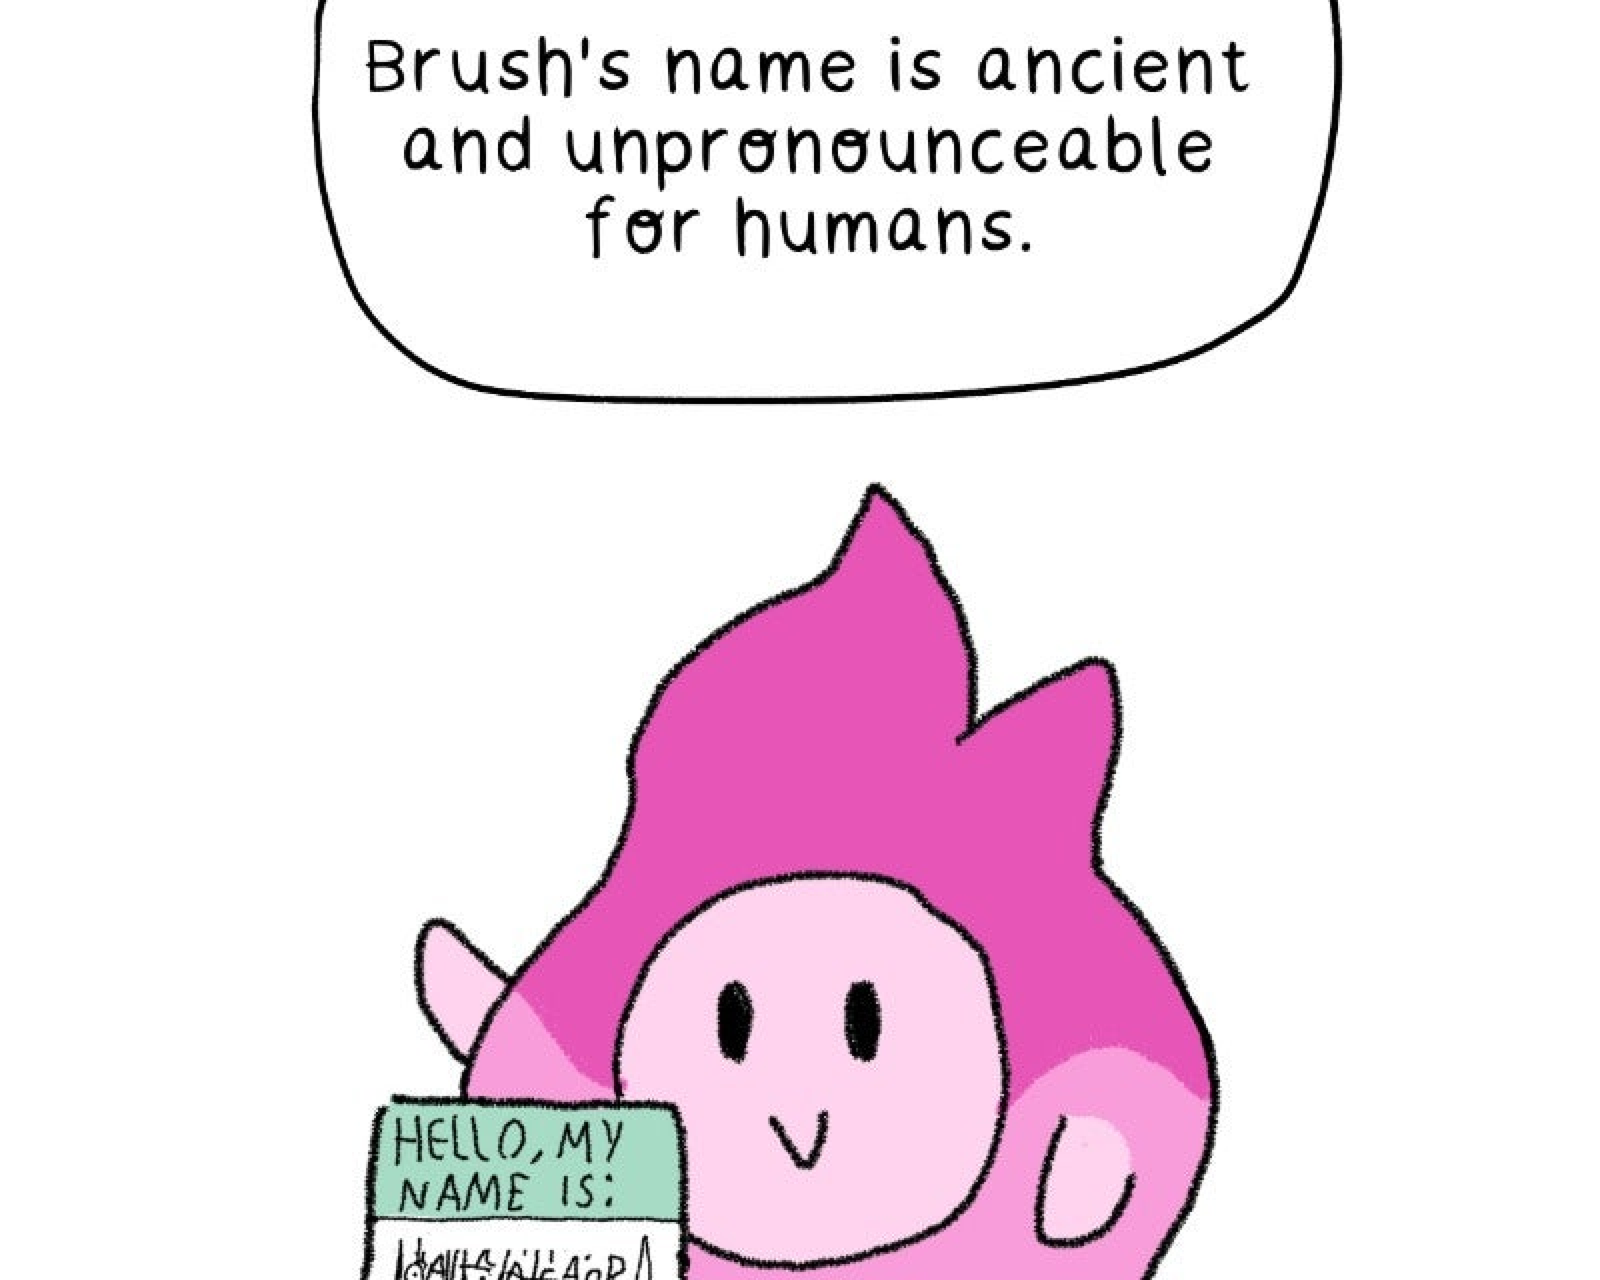
There are 5 Primordial Wips of Magic. Only two of them have been found:



Imagination and Wisdom.

Are gato and brush
their actual names?

Gato's actual name is Dedé.
HELLO, MY NAME IS:
DeDé



Brush's name is ancient and unpronounceable for humans.
HELLO, MY NAME IS:

Still, her close friends call her **Gina**.
IMAGINATION
